

A Joint Admissions Agreement Between
Suffolk County Community College and
Stony Brook University

Purpose of This Agreement

The purpose of this agreement is to outline the procedure for a Joint Admissions Program between Suffolk County Community College (hereinafter identified as Suffolk) and Stony Brook University (hereinafter identified as Stony Brook).

The Joint Admissions Program stipulates that upon admission to Suffolk in the programs listed in Appendix A, students are guaranteed admission into the College of Arts and Sciences at Stony Brook, provided they have completed their Associate in Arts or Associate in Science degree at Suffolk with a minimum cumulative grade point average of 2.8.

Students are also assured that upon completion of an Associate in Science degree in Engineering Science by June 1st with a cumulative grade point average of 3.20 or higher and who earn grades of B or higher in major courses including calculus and physics will be guaranteed admission to the major in Mechanical Engineering, Engineering Science, Electrical Engineering, or Computer Engineering in the College of Engineering and Applied Sciences at Stony Brook. Additionally, courses used for the major may not be repeated. Students must declare and be accepted directly into the Engineering Science major as first-time matriculated freshmen at Suffolk. **Please note students may only matriculate in an Engineering Degree at Stony Brook University through the Joint Admissions program for the fall term.**

Suffolk students who complete an Associate in Science degree in Computer Science by June 1st with a cumulative grade point average of 3.20 or higher and earn grades of B or higher in courses evaluated as equivalent to each MAT 131, 132, CSE 114, 214, and 215 at Stony Brook with an average of 3.2 or higher in the CSE 114, 214 and 215 equivalents will be guaranteed admission to Stony Brook's Computer Science major. Additionally, courses used for the major may not be repeated. Students must declare and be accepted directly into the Computer Science major as first-time matriculated freshmen at Suffolk. **Please note students may only matriculate into the Computer Science major at Stony Brook University through the Joint Admissions program for the fall term.**

Suffolk students who complete an Associate in Arts degree in Liberal Arts (general studies emphasis), an Associate in Science degree in Business Administration, or an Associate in Science degree in Accounting with a cumulative grade point average of 3.2, will be guaranteed admission to Stony Brook's Business Management major.

Students should plan to complete their baccalaureate degree at Stony Brook in four additional semesters (or the equivalent for part-time students) in one of the programs listed in

Appendix B provided they have completed relevant general education requirements and the lower division courses required by their major department prior to transferring to Stony Brook as outlined in the Stony Brook Undergraduate Bulletin. Completion of degree requirements within four semesters is also dependent upon fall semester matriculation at Stony Brook and the student's program of study and progress in completing the requirements of the major.

To be eligible for the Joint Admissions Program, students must select Joint Admissions on their initial college application or contact the Admissions Office at their home campus at Suffolk prior to the completion of 24 credits.

The Joint Admissions Program is open to:

1. Applicants to Suffolk who will be first-time, matriculated freshmen; * or
2. Transfer applicants to Suffolk who will enter with fewer than 24 credits of completed college work, except students who were previously matriculated at Stony Brook or otherwise noted; ** or
3. Any current matriculated Suffolk student who applies to the Joint Admissions Program prior to the completion of 24 credits of college work, except where otherwise noted**.

***Students on VISAS are not eligible.**

**** Engineering and Computer Science Majors - must declare and be accepted directly into the major as first-time matriculated freshmen at Suffolk.**

Stony Brook and Suffolk agree jointly to provide the following:

1. Each institution will designate a coordinator and an academic advisor for the Joint Admissions Program.

Stony Brook agrees to provide the following for associate degree candidates at Suffolk who apply for Joint Admissions:

1. Stony Brook representatives will meet at Suffolk with students in the Joint Admissions Program. The purpose of these meetings will be to provide academic advice about Stony Brook's curriculum and general information about Stony Brook.
2. Stony Brook agrees to provide, as needed, information sessions with faculty and staff of Suffolk who will be involved in consulting and advising students enrolled in the Joint Admissions Program.
3. A viewable chart on Stony Brook's website with course equivalencies for students to plan out their course of study. The viewable chart is updated as new courses present themselves in the curriculum or as syllabi change.

Suffolk agrees to provide the following for associate degree candidates at Suffolk who apply for Joint Admissions:

1. Suffolk will be responsible for selection of candidates to the Joint Admissions Program. Applications will be evaluated according to the basic criteria in effect at Suffolk.
2. On October 1st and February 1st of each year, Suffolk will provide Stony Brook with a list of all students participating in the Joint Admissions Program. Also, at this time, Suffolk will submit a list of the Joint Admissions students scheduled to graduate at the end of the semester who have indicated their intent to attend Stony Brook the following semester, along with copies of their transcripts.
3. By July 1 (for fall enrollees) and January 15 (for spring enrollees) Suffolk will send Stony Brook official proof of receipt of associate's degree for Joint Admissions students and final transcripts.
4. Suffolk will assist in setting up advisement programs involving Stony Brook faculty and staff.

Articulation for Transfer Students Not Participating in Joint Admissions:

Procedures outlined herein relate specifically to students who simultaneously apply to Suffolk and Stony Brook. Some students who apply to Suffolk have not decided upon their ultimate educational objective or transfer destination. During the course of study at Suffolk, they may decide upon transferring to Stony Brook.

The two institutions agree to make every effort to facilitate transfer to Stony Brook of Suffolk graduates not covered by this agreement. It is understood, however, that students not covered by the Joint Admissions agreement must apply and meet the admission standards of Stony Brook University.

Term of Agreement

This agreement will go into effect in the Fall semester of 2022. The agreement will remain in effect for two (2) years, through the Spring semester of 2024, with an option to renew for additional two-year terms upon the parties' mutual written consent. All students who apply through the spring of 2024 to Suffolk will be eligible for Joint Admissions. Stony Brook and Suffolk agree to assess the Joint Admissions Program on an annual basis with the intent of modifying, as necessary, and expanding its scope to encompass other programs at Suffolk and at Stony Brook, as appropriate.
